HRUDAYESH GHARAT

Data Analyst | SQL | Python | Power BI | Excel

Mumbai, Maharashtra, India | +91 9322680255 | hrud.gharat@gmail.com

LinkedIn | GitHub | Portfolio

Professional Summary

Entry-level Data Analyst skilled in SQL, Python, Power BI, and Excel, with hands-on experience cleaning and analyzing 30,000+ records, developing interactive dashboards, and translating data into actionable business insights.

Technical Skills

Languages & Analytics: SQL, Python, Pandas, NumPy, Exploratory Data Analysis (EDA), Statistical Analysis

Business Intelligence: Power BI, DAX, Microsoft Excel, Tableau, Dashboard Development, KPI Reporting, Data Visualization

Data Management: Data Cleaning, Data Validation, Data Transformation, ETL, Data Quality Analysis

Databases & Tools: PostgreSQL, MySQL, MongoDB, Git, GitHub, Matplotlib, Seaborn, Next.js, Gemini API

Projects

Global Superstore Sales & Profit Dashboard GitHub

Power BI | DAX | Business Intelligence

- Developed a three-page Power BI dashboard analyzing 51,290 retail records across sales, profitability, product performance, and markets.
- Built DAX measures and KPI visuals for Sales, Profit, Orders, Quantity, and Average Discount, incorporating slicers and conditional formatting.
- Designed interactive reporting views with drill-down functionality and contextual tooltips to support business performance analysis.

Bangkok Airbnb Market Analysis GitHub

PostgreSQL | SQL | Data Cleaning | EDA

- Cleaned and validated 30,922 Airbnb listings using PostgreSQL, standardized pricing data, and flagged 61 extreme price outliers.
- Answered six business questions using SQL CTEs, window functions, and ranking techniques to evaluate pricing, hosts, and market concentration.
- Identified a 9% superhost pricing premium and approximately 2.1x average review volume (40.4 vs. 19.4) compared with non-superhosts.

Signal - Customer Feedback Intelligence GitHub

Next.js | Gemini API | Sentiment Analysis

- Developed a customer feedback analytics application supporting CSV uploads of up to 120 reviews and optional Gemini AI analysis.
- Analyzed 120 Amazon reviews across six products, identifying approximately 52% positive sentiment and a 4.1/5 average rating.
- Classified customer feedback into five business themes, linking recurring quality and usability complaints to review evidence.

Education

Master of Computer Applications (MCA) 2025 – Present

Manipal University Jaipur (Online/Distance)

Bachelor of Computer Applications (BCA) 2022 – 2025

Sandip University, Nashik | CGPA: 7.17

Certifications

Google Data Analytics Professional Certificate – Coursera

Introduction to Data Science – Cisco

Languages

English, Hindi, Marathi
